

Interoffice Memo

LONE STAR INDUSTRIES, INC.

One Greenwich Plaza, Greenwich, Connecticut 06830

Originating Office: Seattle Cement Plant

Date: August 30, 1983

BUSINESS CONFIDENTIAL

TO: A. C. Imhoff

FROM: K. J. Rone

SUBJECT: Activity Report - Week Ending 8-28-83

EPA Region 10 Superfund

RELEASABLE

Date 5/13/04

Initial KM for GS

1. Frequent involvement by Quality Supervisor in Lakeside Sand and Gravel investigation into low slump concrete problems. Competitive tests indicated mix design was at fault requiring too much additive to attain proper slump. Next move will be by contractor to convince state to increase water/cement ratio. We will attend meeting.
2. Received coal delivery without complications.
3. 175-B FEL returned after extensive differential overhaul.
4. Lost-time accident status is becoming more probable, regarding chemical burn to Nathaniel Craven's shoulder.
5. Sacked 105 tons of fly ash as Spokane Street does not have production capacity.
6. Unusual shipments of Type III to Canada (Ocean Cement) on open P.O.
7. Did preliminary testing of T.D.F. Next test will require optical quality control equipment for more extensive (24 hour) test.
8. Visitors: A. K. Mueller, yourself.
